# NEWSLETTER

**October 16 through 31, 2002**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **October 16 through 31, 2002.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Gregoria Garcia (for projects in Northern California)  
Becky Frank (for projects in Southern California)

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

# CEQA & Planning Case Law

## Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

**No Cases have been selected for the period of October 16-31, 2002.**

*Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.*

DATE: AUGUST 12, 2002  
TO: ALL CEQA LEAD AGENCIES  
FROM: TERRY ROBERTS, STATE CLEARINGHOUSE  
RE: CONFIRMATION OF RECEIPT FOR NOTICES OF DETERMINATION

We regret to inform you that the State Clearinghouse will no longer be able to honor requests for written confirmation of the posting of a Notice of Determination (NOD) or Notice of Exemption (NOE) with the Governor's Office of Planning and Research (OPR). In the past, and as a courtesy, we were able to comply with requests for written confirmation. However, due to recent budget cuts and an increasing volume of special requests, we can no longer provide such confirmation, either by mail or by fax.

Sections 15075 and 15094 of the CEQA Guidelines spell out the responsibility of the State Clearinghouse to post NODs. Section 15062 (c) of the Guidelines spells out the responsibility of the SCH to post NOEs. We realize the importance of timely posting because this begins a statute of limitations on court challenges. OPR will continue to post NODs and NOEs in a timely manner and enter the notice information in our online CEQAnet database.

If you fax a NOD or NOE to the State Clearinghouse, please retain the fax confirmation for your records. If you file a NOD or NOE with us in person, please provide a second copy of the document and we will at that time be happy to date stamp and return it to you immediately. If you mail a NOD or NOE to us, you may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation of receipt, or obtain written confirmation of posting by printing a report from the CEQAnet database at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov).

We apologize for any inconvenience this may cause and will continue to provide the best possible service to the public within our means.

# CEQA Documents

## Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, October 16, 2002</u></b>			
2002102069	Hamilton Avenue Grade Separation of the Vasona Corridor Light Rail Transit Project Santa Clara Valley Transportation Authority San Jose--Santa Clara The project will provide grade separation of the Vasona Light Rail crossing of Hamilton Avenue from the roadway.	<b>EA</b>	11/15/2002
2002031106	Palm and Carnation Avenue Street Ends Improvements Project San Diego, Port of Imperial Beach--San Diego The project provides for the renovation and enhancement of public coastal accessways and view corridors for the western termini of Palm and Carnation Avenue, where these street ends intersect with the beach. The project will promote and enhance public safety, recreational opportunities, and accessibility to the general public with the effect of creating an overall park-like setting within each street end.	<b>EIR</b>	12/02/2002
2000062111	United Auburn Indian Community of the Auburn Rancheria United Auburn Indian Community Lincoln--Placer Development of a gaming and entertainment facility with associated improvements, including parking, a fire station, water and wastewater facilities, and traffic improvements.	<b>FIN</b>	
2002042035	Revision of the Lafayette General Plan Lafayette, City of Lafayette--Contra Costa The primary objective of the General Plan revision is to clarify and revise components of the amended 1974 Lafayette General Plan and land use map. The Plan establishes policies for all lands within the Lafayette city limits and makes recommendations for land within Lafayette's Sphere of Influence. The Plan proposes a reduced development density in the LR zoning district.	<b>FIN</b>	
2002101081	Cantarini/Holly Springs Joint EIR - EIR 02-02 Carlsbad, City of Carlsbad--San Diego Proposed residential subdivisions consisting of: 1) the Cantarini Ranch Subdivision of a 155 acre site to allow 105 single-family homes on 1/2 acre minimum lots and an 80-unit mixed-rate apartment project; and, 2) the Holly Springs Subdivision of a 99 acre site to allow 43 single-family custom homes on 1/2 acre minimum lots.	<b>NOP</b>	11/14/2002
2001102087	Atlantic-Del Mar Reinforcement Project Public Utilities Commission Rocklin--Placer A four-mile 60 KV power line and modifications to the Atlantic and Del Mar substations.	<b>Neg</b>	11/14/2002

## CEQA Daily Log

	proposes a range of uses for the Historic District and adjoining areas that include long-term goals and guidelines for the appropriate types, locations, and designs of facilities that may be proposed in the future as well as specific proposals that will be implemented with current or near-term funding. The proposed uses include park operations (visitor center, kiosk, restrooms, offices, maintenance, staff housing), overnight accommodations, utility upgrades, and educational or interpretive facilities. These uses will be in conformance with the Department's policies for adaptive use in a Historic District. The plan will also establish interpretive programs and activities proposed or approved by the Department.		
2002102077	Dry Creek Parkway Master Plan Sacramento County --Sacramento This program EIR will assesses the environmental impacts that could occur as a result of adoption of the Dry Creek Parkway Recreation Master Plan. The EIR will contain a program level of analysis to be used in conjunction with subsequent actions in the Master Plan such as tiered environmental documents for specific projects.	<b>NOP</b>	11/15/2002
2002101084	Removal Action Workplan for the 32-Acre Parcel of the Former Cornfield Rail Yard Toxic Substances Control, Department of Los Angeles, City of--Los Angeles The proposed Removal Action project would be implemented under the direction of the State of California Environmental Protection Agency, Department of Toxic Substances Control pursuant to Health and Safety Code Section 25355 (a)(1)(C). The removal action project proposes excavation and transport of contaminated soil to an offsite facility for treatment and disposal. The proposed removal of contaminated soil will be conducted in accordance with the methods, and procedures presented in the document entitled "Removal Action Workplan (RAW)". Approximately 2,850 cubic yards of contaminated soil, which is found predominantly in the top one and a half feet, will be excavated and transported to a state approved treatment facility in Kettleman City, California. Following the successful completion of the removal action, excavated areas will be backfilled with clean soil. The Removal Action goals are aimed at reducing concentration, such that future exposure to humans and potential ecological receptors are minimized, while at the same time reducing the potential for migration of constituents to groundwater beneath the Site. During its operational history, the former Cornfield Rail Yard was predominately used as a railroad maintenance yard which also provided passenger and freight rail services within the former Rail Yard. The Site is currently vacant and undeveloped. Chemicals of concern include TPH, lead and arsenic in shallow soils at the Site.	<b>Neg</b>	11/15/2002
2002101085	Halibut 85X-35 Division of Oil, Gas, and Geothermal Resources Maricopa--Kern Oxy Resources California LLC. (ORCA) proposes to drill, test, and possibly produce an exploratory oil well. The site is located in Section 35, Township 12 North, Range 22 West, S.B.B.M. in Kern County.	<b>Neg</b>	11/15/2002

2002101099	Pasadena City Hall Seismic Retrofit Project Pasadena, City of Pasadena--Los Angeles The rehabilitation and seismic base isolation of Pasadena City Hall involves strengthening the existing building foundations and the creation of a "moat" around the entire perimeter of the building to allow for ground movement independent of the building. Base isolation will complete the rectangular plan with a new east basement structure that ties the building together as a unit, and cuts the building off from the existing foundations. New grade beams will tie the existing footings together, base isolators that act as shock absorbers between the original foundation and the building above will be inserted and a structural diaphragm installed, tying the basement columns and walls together. The isolators change earthquake forces from having a high frequency with sharp movements to having a low frequency with slower motion. Basement light wells exist at the exterior perimeter except at the corners. These wells are to be incorporated as part of the moat for the base isolation system and must be shored and the walls removed and replaced extending down approximately four feet below the existing light well floor.	<b>NOP</b>	11/19/2002

Eureka area) Case No. CDP-02-22 Humboldt County Eureka--Humboldt A Coastal Development permit and Special Permit are required for the development, maintenance and operation of a permanent animal shelter to house, treat, adopt out and dispose of up to 400 domestic "companion" animals. The facility will require six (6) full time staff plus various volunteers. Business hours will be a minimum of six (6) hours per day, Monday through Friday, three (3) hours on Saturdays, closed on Sundays. The facility will adhere to regular County holidays. The Special Permit is required to establish the number of off-street parking spaces and to waive the loading space requirement of the County parking regulations based on anticipated levels of use. A 10 car parking lot will be delineated for the use of the estimated 10-30 public visits per day. There is additional parking available in the adjacent County Agricultural Building on the south side. All animal waste will pass through a "digestive system" prior to being flushed into the public sewer system. The approximate 2.8 acre parcel is served by community water and sewer. The proponent intends to attenuate noise by utilizing design measures such as structural acoustical materials, earthen berms and vegetation in combination with operation controls.	<b>Neg</b>	11/19/2002

	Site Plan approval prior to the approval of any permit for development. This "B" conditions was implemented to assure that all feasible measures have been taken to minimize excessive grading and preservation of steep slope lands. The project site was legally cleared prior to the adoption of the BMO and the implementation of the MSCP.		
2002108308	Streambed Alteration Agreement concerning an unnamed tributary to Coyote Creek Fish & Game #5 La Habra--Orange The proposed project would alter 8.2 feet of the streambed to extend the existing culvert and allow construction of a side walk. The purpose of the project is to complete this section of side walk so pedestrians do not need to walk out into traffic. The streambed consists of an unlined channel that supports a combination of native and exotic plant species. A construction staging area will be located directly to the west of the creek. The total impact is .248 acre of streambed; permanent impacts total .007 acre for the footprint of the culvert extension and wingwall; temporary impacts total .241 acre consisting of .14 acre of riparian wood land, .031 acre of streambed and .07 acre of mulefat scrub adjacent to the streambed.	<b>NOE</b>	
2002108309	Streambed Alteration Agreement concerning unnamed tributary to San Clemente Canyon Fish & Game #5 San Diego--San Diego The Operator proposes to alter the streambed to conduct bank stabilization of approximately 200 linear feet of an unnamed drainage to San Clemente Canyon. An existing 30-inch-diameter gas pipeline (TM 3010) parallels the drainage within the San Diego Gas and Electric (SDG&E) right-of-way. Erosion and widening of the drainage has caused some areas of the pipeline to have less soil cover than is mandated by the California Public Utilities Commission and Department of Transportation. The proposed bank stabilization will include mowing the existing vegetation on the bank of the drainage, removing two failed concrete bank protections, repairing two erosional features along the drainage bank, cutting back the bank to achieve a 1:1 slope ratio, armoring the toe of the drainage bank with concrete interlocking revetments (A-Jacks, installing two wing walls (constructed of A-Jacks), placing a three-dimensional polyamide matting on the drainage bank, backfilling, and reseeded. The project will temporarily impact 2,070 square feet of unvegetated stream and will permanently impact 449 square feet of unvegetated stream. In addition, one coast live oak sapling will be removed within the drainage. The Operator shall mitigate for the temporary impacts by reseeded the impact area with an appropriate coastal sage scrub seed mix according to the protocols of SDG&E's Subregional Natural Community Conservation Plan (NCCP) Permit and shall mitigate for the permanent impacts with the removal of 332 square feet of invasive non-native vegetation and the removal of cement, asphalt, and debris from the streambed. The removal of one coast live oak shall be mitigated in accordance with the NCCP by deducting mitigation credits from SDG&E's mitigation bank.	<b>NOE</b>

<b><u>Documents Received on Monday, October 21, 2002</u></b>			
2002108310	<p>Streambed Alteration Agreement concerning a San Diego Creek Fish &amp; Game #5 Irvine--Orange</p> <p>The Operator proposes to alter the streambed to widen the existing southbound Interstate 405 bridge as part of operational improvements between MacArthur Boulevard and Culver Drive. The bridge will be widened 12 feet in order to accommodate an additional southbound lane. In order to do this, the existing two bridge pier walls will be extended south ward. This work will include excavation to locate an existing water line, pile driving, construction of additional footing, falsework to construct the bridge deck and relocation of rock rip rap on the upper slopes of the channel bank. The streambed at this location of rock rip rap on the upper slopes of the channel bank. The streambed at this location consists of an earthen trapezoidal channel that, except for a City of Irvine restoration site just south of the right of way on the eastern slope, is actively maintained by the Orange County Flood Control District and therefore contains very little vegetation. Temporary impacts consist of 0.11 acre for an access ramp on the west bank of the channel. This bank does not support any vegetation and the access ramp will be removed after the project is completed. Permanent impacts to the streambed include 0.047 acres consisting of the new pier wall footprint and shading from the bridge structure, 0.04 acres for an access path on the east bank, and 0.02 acre of rip rap relocation; the total area of permanent impact is 0.107 acre consisting of early successional southern willow scrub. The mitigation for this impact will occur offsite at Serrano Creek, which is a tributary to San Diego Creek, and will consist of restoration of 0.28 acre of riparian woodland.</p>	NOE	
2002108311	<p>Anza-Borrego State Park - Mason Valley Acquisition (02-03-CD-07) Parks and Recreation, Department of --San Diego</p> <p>Project consists of the acquisition of approximately 900 acres for state park purposes in the area known as Mason Valley in eastern San Diego County. A previous NOE (SCH#2001108146) was posted for a smaller acreage in the same area. The acquisition will be added to Anza-Borrego State Park.</p>	NOE	
2002108312	<p>Siltanen Park Playground Improvements Scotts Valley, City of Scotts Valley--Santa Cruz</p> <p>Improvements include removal and replacement with a concrete retaining wall, replacement of an existing play structure and new fencing.</p>	NOE	
2002108313	<p>Skylark Canyon Emergency Sewer Repairs San Diego, City of San Diego--San Diego</p> <p>Emergency cleaning by City staff of a 46-year old sewer line for a distance of approximately 1,748 feet. Severe root intrusion, cracked and offset joints, mineral deposits, and several sections of broken lines have been noted from recent televising of this line. Sewer overflows have been reported on 3/13 &amp; 16/98 and 7/10/98 and emergency repairs were completed. The pipe size is an 8-inches in diameter and is made of vitrified clay. Construction will be needed in this canyon to approximately 12 manholes. Access to additional manholes may be required during emergency cleaning. These construction activities include grading and repair of maintenance access. Once this is completed, other side canyon areas may need to be accessed and sewer lines cleaned depending upon the results of further inspections. All work will be monitored by a biologist.</p>	NOE

2002108314	Spreckels Organ Repair and Maintenance San Diego, City of San Diego--San Diego Repair and general maintenance of the Spreckels Pipe Organ in Balboa Park by L.W. Blackington and Associates, Inc. Specific repairs or maintenance includes, but is not limited to, the replacement of old/deteriorating leather connections from the pipe to the organ, replacement of hand-made parts and continued pipe organ maintenance.	<b>NOE</b>	
2002108315	Fecal Bacteria Source Identification and Tidal Circulation/Source Abatement Study Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Sonoma The project would involve releasing a small quantity of a commonly used chemical dye-tracer, Rhodamine-WT, into Bodega Harbor at specific locations and times within, and near the mouth of, the harbor. The movement and dispersion would be tracked from boats by on-site fluorometers. The quantity of dye released would result in low-level concentrations not toxic to aquatic life and below maximum levels recommended for drinking water sources. Tidal currents will disperse the dye over a period of roughly six hours. Data gathered from the study will yield information on travel times, current velocity, and dispersion rates for the surface waters in and near the harbor. The information will assist in identifying bacterial contamination sources and control measures to reduce the health threat from contamination.	<b>NOE</b>	
2002108316	Interstate 10 Truck Climbing Lane Caltrans #8 Redlands, Yucaipa--San Bernardino Construct eastbound truck climbing lane from Ford Street onramp to Live Oak Canyon Road offramp. Work also includes construction of an eastbound auxiliary lane from Ford Street onramp to Yucaipa Boulevard offramp, concrete barrier and shoulder paving in the median, modification of three eastbound onramps (Ford, Wabash and Yucaipa Blvd.) and one eastbound offramp (Yucaipa Blvd.), and construction of soundwalls and retaining walls.	<b>NOE</b>

Top of slope to be re-graded with less than 50 cubic yards of rip rap. Repair will control erosion, reduce degradation of existing rip rap revetment, and reestablish riparian corridor.	<b>Neg</b>	11/22/2002
1992052017	Orville Wright Neighborhood Park Modesto, City of Modesto--Stanislaus This is a General Plan Amendment and rezoning to allow a 10,000 square foot medical office complex.	<b>NOD</b>	
1999091145	Sycamore Vista Business Center Vista, City of Vista--San Diego The proposed project consists of a 13-lot Industrial Tentative parcel Map on a 10.8 acre site.	<b>NOD</b>	
2000041035	Ocean View Plaza Monterey, City of Monterey--Monterey Use Permit, Vesting Tentative Map and Tentative Condominium Plan to allow mixed use project of Cannery Row History Center , 91,984 square feet of retail use; 7,435 square feet of Coastal/community use, 24 condominiums, 6 inclusionary housing units, 381 parking spaces and on-site water desalination plant. Requires California Coastal Commission permit.	<b>NOD</b>	
2001101159	Sycamore Landfill-Brushing and Clearing San Diego, City of San Diego--San Diego California Department of Fish and Game is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1603 (SAA# R5-2002-0174) of the Fish and Game Code to the project applicant, Sycamore Landfill. The applicant proposes to alter the streambed to continue the operation of the Sycamore Landfill which has been in operation since the 1960s. The project will occur in three phases which include the brushing and clearing of 205 acres north of and adjacent to Litte Sycamore Canyon, impacting 3.03 acres of jurisdictional streams. An aggregate processing operation is to be added to the landfill site to process aggregate materials excavated for the continued landfill development. Mitigation will include the creation/restoration of 0.32 acres of mulefat scrub and 2.87 acres of stream that supports scattered riparian scrub habitat and the preservation of 2.87 acres of jurisdictional stream. Plant communities found on the project site include: coastal sage scrub, native grassland, annual grassland, southern mixed chaparral, mulefat scrub (0.16 acres) and unvegetated stream (2.87 acres). The project is located within the East Elliott Community Planning Area of the City of San Diego, San Diego County.	<b>NOD</b>	
2002021028	Summerwind Village Apartments San Diego, City of --San Diego SAA R5-2002-0089 The applicant proposes to alter the streambed to develop a 3.34 acre lot into a 42-unit multi-family complex with amenities. Direct impacts to jurisdictional areas include the grading and filling of the onsite stream (0.07 ac.).	<b>NOD</b>

This is a safety project with high priority for Caltrans.	<b>NOD</b>	
2002109075	Tentative Subdivision Map Application No. 99-03 Hillsborough Estates; R4-2001-0182 Fish & Game #4 --Stanislaus The California Department of Fish and Game (Department) is executing a 1603 Stream Alteration Agreement with California Associated Ltd. (Applicant) for the Applicant's use of the Stanislaus River. The Applicant plans to construct and install a storm water outfall structure composing of two 86-foot length 24-inch diameter drain pipes. Approximately 50 cubic yards of 1/4-ton clean angular rebar will be placed along the north bank of the Stanislaus River to provide energy dissipation of water exiting the storm drains. The riprap will be placed in an area approximately 15 feet linear stream length by 86 feet width. The project period is from the execution of the Agreement through one (1) year.	<b>NOD</b>	
2002109076	Approve a Renovation Plan for Modesto Landmark Preservation Site No. 54 Modesto, City of Modesto--Stanislaus The project is a Renovation plan for the existing Landmark Site No. 54 church building that includes the following items: 1. Renovate the fire escape by removing the old fire escape and constructing a new fire escape that will double back on itself. The new fire escape will have a wire mesh enclosure with an open arch to match the windows. Vines will be planted in order to grow up the wire mesh. 2. The front entry will be lowered and handicapped ramps installed outside. One of the interior stairwells will be converted to an elevator shaft. 3. The windows will be repaired and the stained glass reinstalled. 4. Clear glass will replace stained glass in two small windows. The stained glass will be retained so that it can be reinstalled if so desired at a later date. 5. There will be a three-color paint scheme for the painted areas probably in browns. When the scheme is determined, the architects will make their presentation to the Landmark Preservation Commission.	<b>NOD</b>	
2002108399	R4-2001-0162; Tule River Powerhouse Fish & Game #4 --Tulare Removal of 38 feet of collapsed concrete tailrace walls and floor, utilizing an excavator from the stream bank. Replace approximately 25 feet of concrete canal or tailrace that was damaged during a recent flood event. This includes construction of 3 concrete piers above the water line to support the new tailrace. Placement of riprap, both upstream and downstream of the tailrace. Removal of an old concrete weir, located 60 feet upstream of the new tailrace, within the river bed. The weir will be jack-hammered into smaller pieces and removed with an excavator.	<b>NOE</b>

2002108400	Maintenance of Del Rey Canyon Channel Fish & Game #3 Monterey--Monterey Issuance of a Streambed Alteration Agreement Number R3-2002-0881 pursuant to Fish and Game Code Section 1601 for the following project. The proposed project is for the routine maintenance of the Del Rey Canyon Channel at the intersection of Highway 68 and 218, City of Monterey, in Monterey County. The channel flows out of a culvert and into another culvert with approximately 60 feet of open channel. The 60 feet of open channel supports cattail and some willow growth and this vegetation is clogging the channel and may result in back-flooding at the Highway 68 culvert inlet. The proposed project will remove the vegetation from the channel using hand tools and disposing of the material off site. No mechanical equipment shall be used in the channel. Caltrans is requesting a 5-year Agreement for this maintenance work.	NOE	
2002108401	Pier modification Fish & Game #2 --Placer Add floating dock section to existing pier and temporary boat ramp extension.	NOE	
2002108402	Pipeline installation Fish & Game #2 Lincoln--Placer Install approximately 300' of 6" natural gas pipeline underneath Auburn Ravine.	NOE	
2002108403	Culvert installation Fish & Game #2 --Sierra Installation of a single 18-24" culvert in an intermittent stream.	NOE	
2002108404	Romberg Tiburon Center Finger Pier California State University, San Francisco Tiburon--Marin This project involves the construction of an approximate 4-foot by 184-foot long finger pier on six, existing concrete and steel pilings that once supported a wharf constructed by the U.S Navy. The pier and end platform total 840 square feet. A ramp leading to the pier will be attached to the existing concrete seawall. The construction of this pier will facilitate the installation and regular maintenance of meteorological and hydrological instruments necessary for the station's operation. The equipment and associated cables relaying data to an onshore computer will be securely attached to the pilings and new platform. No new construction or pile driving will occur in the water.	NOE	
2002108405	KP 72.5 Caltrans #3 --Placer The proposed project is located on Interstate 80 between the towns of Alta and Baxter at postmile 45.1 in Placer County. Cleaning and repair of the drainage system at this location is necessary due to the extensive corrosion of pipes and deposition of fill material from the highway embankment. This project consists of cleaning fill material from the riser and cross culvert, lining both pipes, and placement of aggregate base asphalt adjacent to the drainage inlet. No new right of way or temporary construction easements will be required. This is a state-only funded project.	NOE

2000052082	Project No. 126 Altamont and Arroyo Las Positas Restoration Project in Livermore Zone 7 Water Agency Livermore--Alameda SAA R3-2000-1054 The Zone 7 Water Agency proposes to excavate approximately 16,000 cubic yards of channel sediment from an engineered portion of Arroyo Las Positas and Altamont Creek located approximately 1 mile north of Interstate 580 and extending approximately 500-800 feet upstream and 1000 feet downstream from the Bluebell Drive Bridge in Springtown, Livermore, Alameda County.	<b>NOD</b>	
2001031004	Armstrong Ranch Santa Ana, City of Santa Ana--Orange Proposed project is an amendment to the SD-4 Zoning District to reduce required side yard setbacks from 5-feet to 4-feet, increase maximum allowable lot coverage to exceed 50-percent coverage, to allow churches as a permitted use, to increase maximum density to 6.5 dwelling units per acre and to allow an increase in the maximum height from 35-feet to 150-feet.	<b>NOD</b>	
2001092054	Reconfigure Connectors and Widen Solano I-80 from I-680 Interchange to Route 12 Caltrans #4 Fairfield--Solano SAA R3-2002-0812 The proposed project will involve work in Dan Wilson Creek along Highway 80 in Fairfield, Solano County. Dan Wilson Creek is intermittent in this area and some water may be present during construction. The proposed work will widen both existing bridges of Highway 80 over Dan Wilson Creek resulting in the closure of the gap between the bridges. If flow is present in the creek during the construction period, temporary water diversion systems will be constructed consisting of coffer dams and culverts to bypass flow. In-creek work will consist of excavation for footings, drilling for new pilings, pile driving, forming and shoring of new columns to support the widened bridge structure. To accommodate this work all existing vegetation between the two bridges will be removed and the stream bed will be reshaped. The equipment that will be used to accomplish the work will most likely be bulldozers, backhoes, trucks, earthmovers, cranes, pile drivers, and drilling rigs.	<b>NOD</b>	
2002041055	Reconstruction and Widening of Road 200 between Spring Valley School and Leprechaun Lane Madera County --Madera Reconstruction and widening of Road 200 within an 80-foot right-of-way from Spring Valley School to Leprechaun Lane resulting in: 1) a 12' travel lane in each direction; 2) two 8' foot paved shoulders; 3) improvements to the structural section of the roadbed; 4) improvements to intersections and major access points; and 5) future utility and drainage construction.	<b>NOD</b>	
2002071148	Gamboni Ranch Residential Tentative Map San Diego County Department of Planning and Land Use San Diego--San Diego Subdivide approximately 42 acres into 36 lots of 1.0+ acres and utilize a 5.61-acre site for borrow material that lies adjacent to the proposed residential development.	<b>NOD</b>

2002071151	Naval Weapons Station, Seal Beach Toxic Substances Control, Department of Seal Beach--Orange The proposed removal action includes the excavation, removal, and off-site disposal of approximately 400 cubic yards of lead-impacted soil.	<b>NOD</b>	
2002081103	Jaycee Park Development Pomona, City of Pomona--Los Angeles Reconfiguration of Jaycee Park including the creation of youth athletic facilities for Little League Games.	<b>NOD</b>	
2002109072	Barca Open Space Encroachment, AD 02-029, ER 88-09-027A San Diego County Department of Planning and Land Use --San Diego The project is the construction of a chain link fence between existing roads, Rancho Barona Road and Mesa Estates Road, and an open space easement located on parcel 10 of TM 4767-1.	<b>NOD</b>	
2002109073	Lake or Streambed Alteration Agreement for Notification #02-0407 Forestry and Fire Protection, Department of --Siskiyou The applicant proposes three crossings for timber harvesting activities on South Fork Clear Creek and unnamed tributaries to McAdams Creek, Siskiyou County.	<b>NOD</b>	
2002109074	Lake or Streambed Alteration Agreement for Notification #02-0249 Forestry and Fire Protection, Department of --Siskiyou The applicant proposes two crossings for timber harvesting activities on unnamed tributaries to the Little Shasta River, Siskiyou County.	<b>NOD</b>	
2002119006	Adoption of Uniform Fire Code 2000 Edition and Prescribing Regulations Governing Conditions Hazardous to Life and Property Santa Cruz County --Santa Cruz Adoption of standards applicable to certain forms of development and to situations which may be hazardous to life and property resulting from fire and explosion and provision for issuance of permits and recovery of certain fees.	<b>NOD</b>	
2002119026	IEUA RP-1 and RP-4 Recycled Water Pumping Stations and RP-1 Disinfection System Inland Empire Utilities Agency Ontario--San Bernardino The project consists of the expanding the existing chlorine disinfection system at RP-1 by adding a chlorine contact basin. The project will add approximately 15.4 million gallons per day of chlorination capacity to the existing RP-1 basin, for a total RP-1 disinfection capacity of 50.4 mgd. The project will also involve the addition and upgrade of pumps at RP-1 site to provide a total future flow rate of 25,263 gallons per minute (gpm). The ultimate capacity of the RP-1 pump station will be 41,666 gpm. The last component of the project involves improvements at the RP-4 facility. These improvements will consist of three sets of pumps to provide a total flow rate of 8,100 gpm. The ultimate capacity of the RP-4 pump station is 33,333 gpm.	<b>NOD</b>

2002108417	<p>Spadra Tower Erosion Repair Metropolitan Water District of Southern California Walnut--Los Angeles</p> <p>The Metropolitan Water District of Southern California (Metropolitan) proposes the repair of the existing West slope of the reservoir at the Spadra Tower Orange Feeder. These repairs will involve the backfilling of an eroded area, caused by water discharge from a relief vent stack.</p>	<b>NOE</b>	
2002108418	<p>Conceptual Sanitation Plan for Recreation within Diamond Valley Lake Watershed Metropolitan Water District of Southern California --Riverside</p> <p>The Metropolitan Water District of Southern California (Metropolitan) proposes to implement a conceptual sanitation plan that sets forth the guidelines and methodology to be used to determine appropriate sanitation facilities for the public while protecting raw water quality. The plan describes the guidelines and methodology to be used to determine quantities, locations, and types of toilets and other sanitation facilities. The conceptual plan would also address design guidelines, maintenance, and emergency response procedures.</p>	<b>NOE</b>	
2002108419	<p>Agreement Regarding Proposed Stream Alteration (SAA #6-2002-189) Fish &amp; Game Eastern Sierra-Inland Deserts Region --San Bernardino</p> <p>The Operator proposes to alter the stream channel to remove vegetation 100 feet upstream and downstream of eight railroad bridge crossings within Cajon Creek, in the Cajon pass, in San Bernardino County. Vegetation will be removed with hand tools. No vehicles will be allowed to enter the streambed. The project will impact approximately 3.11 acres of vegetation. To compensate for impacts, the Operator shall remove 3.11 acres of vegetation within the stream channel.</p>	<b>NOE</b>	
2002108420	<p>Streambed Alteration Permit for the Installation of Conduit for Cable San Ramon, City of --Contra Costa</p> <p>Pacific Bell proposes to replace overhead wire with underground cable conduit (total length 350 feet) that includes a 75-foot portion that extends beneath Kellogg Creek (20+ feet under the Creek) in a 14-inch diameter boring. The boring will begin and end before the banks of Kellogg Creek. A 14-inch diameter hole will be drilled down to a depth of 20+ feet, and then it will be drilled laterally under the Creek to the other side. The work should take about 4 working days. No mature trees will be removed or affected; no federal or state endangered, threatened, or special species will be affected.</p>	<b>NOE</b>	
2002108421	<p>Grossmont High School Football Field Reconstruction Grossmont Union High School District El Cajon--San Diego</p> <p>The project entails the removal of the sod and base material on the football field and replacement with an artificial turf system. The existing drainage system will not be changed. The purpose of the project is to save water, reduce utility costs, and provide students with a safe even playing surface. Students and the District will benefit.</p>	<b>NOE</b>

<b><u>Documents Received on Tuesday, October 29, 2002</u></b>			
2002102137	Soto Road Bike Lane Improvements Between Frederic Avenue and the Greenway Belt near Culp Avenue Hayward, City of --Alameda The project construct street improvements including curbs, gutters, sidewalks, wheelchair ramps and bike lane striping on Soto Road between Frederic and the Greenway Belt near Culp Avenue.	<b>Neg</b>	11/27/2002
1981092112	Desert Gateway Development Project Subsequent Environmental Impact Report Palm Desert, City of Palm Desert--Riverside Application for development plan approval for community-scale shopping center. A development agreement in good standing currently exists between the owners and the City of Palm Desert. The project area consists of 70 +/- gross acres located at the southeast corner of Dinah Shore Drive (Tamarisk Row) and Monterey Avenue in Palm Desert. The total building area will be 666,000 +/- square feet, will include Sam's Club (150,000 sq ft), Wal-Mart (212,669 sq ft), three other major retail outlets, and a variety of smaller retail outlets, shops and restaurants. The land-to-building ratio is approximately 3.35 to 1, with building coverage of approximately 22.96%. The plan also provides total parking of approximately 3,600 parking spaces, averaging 5.21 parking spaces per 1,000 sq ft overall. Primary access to property will be via Monterey Avenue, 35th Avenue, Dinah Shore Drive, and Market Way. Most service access to be taken from Market Way, which forms the eastern boundary of the project and runs parallel with Monterey Avenue.	<b>SIR</b>	12/12/2002
1999042052	Leona Quarry Project Oakland, City of Oakland--Alameda The project entails the reclamation and restoration of an active quarry site into a 477 unit residential project. Nineteen single family lots would be created at the north edge of the site with access from Campus Drive. A 54 unit, affordable senior housing project would be located at the base of the site with access from Edwards Avenue. The remaining 404 units would be developed on approximately 45 acres at the base of the site, with attached townhomes. A 2 acre park, 14 acre foot detention basin and restoration and revegetation of the main slope area are all part of the project.	<b>NOD</b>	
2000082127	Shoreline Parks Draft Master Plan San Mateo, City of San Mateo--San Mateo The recent approvals are to allow the construction of new park amenities and improvements within the Shoreline Parks Master Plan area. The project site is approximately 177 acres, which includes the Bayfront Nature area, Harborview Park, Ryder Park, Seal Point Park, Seal Cove, Bay Marshes, Bayside-Joinville Park and Tidelands Park. The project area is located along the east side the City adjacent to the San Francisco Bay. The project area is zoned S (Shoreline District). A Site Plan and Architectural Review and Site Development Permit were approved for the following: the construction of new public restrooms and shade structures through out the park area; new storage building and entry kiosk at Seal Point Park; new pedestrian and vehicular bridge across San Mateo Creek at Ryder Park; new pedestrian bridge across San Mateo Creek at Rand Street; Seal Slough Bridge railing improvements; new parking lots; grading within the Shoreline Park Master Plan area; and removal of major vegetation.	<b>NOD</b>

2002101146	Water System Master Plan for the Los Angeles County waterworks District No. 40 (Antelope Valley) Los Angeles County Department of Public Works Lancaster, Palmdale--Los Angeles The proposed Master Plan identifies the needed improvements to the water system, alternative sources of future water supply, and the necessary financing mechanisms to construct the needed facilities. To serve current demand, improvements include 32 new groundwater wells, 54 million gallons of capacity in new storage tanks, several thousand feet of pipelines and new imported water connections. Additional groundwater wells, storage tanks, and pipelines would be needed to serve demand from future developments anticipated by 2010 and 2020. These facilities would be located throughout the district's service area, on existing County-owned properties, as well as on public and private properties that would need to be acquired by the District or where easements would be obtained.	<b>NOP</b>	12/02/2002
2002101149	Tm 5212RPL, Log No. 00-03-002, Wizard Way Tentative Map San Diego County Department of Planning and Land Use -- The project is the subdivision of 28.9 acres into 5 lots for single-family residential development. The development will be on septic systems and will be served by the Valley Center Municipal Water District. The proposed development is accessed from MacTan Road (SC 300) and existing private roads.	<b>Neg</b>	12/02/2002
2002101150	Free Tpm TPM 20450 San Diego County Department of Planning and Land Use --San Diego The proposed project is the subdivision of 9.63 acres into four single-family residential parcels, each with a minimum parcel size of 2 acres (net). The project site is located at the end of Arboleda Vista Drive in the Valley Center Community Planning Area. Water will be provided by the Valley Center Municipal Water District. Fire Service will be provided by the Valley Center Fire Protection District. The project is within the Valley Center Union School District and the Escondido Union School High School District. All parcels will be on septic.	<b>Neg</b>	12/02/2002
2002101151	Chedister Rezone; R00-001; Log No. 00-01-001 San Diego County Department of Planning and Land Use Fallbrook--San Diego The proposed project is for a proposal for a Zone Reclassification on a 1.07-acre property from (RR) Rural Residential to (RC) Residential Commercial. The triangular-shaped lot is located in the Fallbrook Community Planning area at the intersections of East Mission Road, Stage Coach Lane, and Gum Tree Lane, all of which are circulation element roads. The proposed use regulation, Residential Commercial, is intended to create and enhance neighborhoods where a mixture of residential, professional, and convenience commercial uses is desired. The RC zone permits a few specific convenience commercial uses within the predominant residential areas, with the issuance of a Major or Minor Use Permit. Currently the site is vacant and supports a significant drainage feature at the southerly portion of the parcel.	<b>Neg</b>	12/02/2002

2002108509	Streambed Alteration Agreement (R5-2002-0375) to perform routine maintenance activities in modified and unmodified channels at 26 locations in Los Angeles and V Fish & Game #5 --Los Angeles, Ventura The Operator proposes to alter the streambed by removing silt, sand, debris, vegetation and other obstructions to flow and performing minor, in-kind repairs to existing facilities to maintain their functional integrity. Of the 26 facilities that require maintenance (Final Project List, 2002), 19 are completely modified channels (concrete sides and bottom), 2 are partially modified channels (concrete sides, earthen bottom), and 5 are unmodified channels/debris basins (earthen banks and bottom). Native vegetation removal is restricted by density, total area, and tree size (dbh) as defined in the Agreement. All work shall be performed in a manner and time to avoid and minimize potential impacts to wildlife. No work shall be performed where listed or sensitive species may occur within or adjacent to the project footprint. Total permanent impacts at the 26 sites shall not exceed 0.48 acres. The Operator shall create or restore 1.37 acres of native vegetation/habitat on-site or transfer funds to a third party to carry out the restoration/creation. The Department shall make the final determination in writing which projects on the Final Project List may be implemented. Maintenance projects required in subsequent years shall be provided to the Department of approval and shall be amended into the Agreement.	<b>NOE</b>

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Thursday, October 31, 2002</u></b>			
2001012094	Jones Ranch Draft EIR Wheatland, City of Wheatland--Yuba Jones Ranch request annexation, General Plan Amendments to land use and circulation elements and rezoning for 191 acres for the future development of 552 single-family units.	<b>EIR</b>	12/16/2002
2001042003	MetroBase Santa Cruz Metropolitan Transit District Santa Cruz--Santa Cruz The proposed MetroBase facility consists of an operations and maintenance facility to support 98 buses. Project implementation will require the acquisition of two existing businesses. Proposed improvements on the River Street site include a new Liquified Compressed Natural Gas (LCNG) fueling station, a bus washing structure, renovation of the existing operations building to include a second floor, and reconfiguration of the parking and circulation areas. Improvements on the Golf Club Drive site consist of construction of a new 10-bay maintenance facility, renovation of the existing maintenance building, and reconfiguration of the parking and circulation.	<b>EIR</b>	12/16/2002
2002042155	Valero Improvement Project Benicia, City of Benicia--Solano The Valero refinery proposes to install new equipment and modify existing equipment to enable the refinery to process lower grades of raw materials and substitute raw materials, and to increase production by about 10%. Project components would be installed between 2003 and 2009.	<b>EIR</b>	12/16/2002
2002111005	Restoration Plan and Environmental Assessment (RP/EA) for the January 17, 1994, Santa Clara River ARCO Pipeline Oil Spill Department of Fish and Game (OSPR) --Los Angeles Land Acquisition/Conservation Easements concerning land protection, management and restoration; information and Education concerning the Santa Clara River, its associated resources, restoration, and oil spill awareness; Watershed Evaluation and Monitoring to gain a better understanding of watershed processes, associated habitats and wildlife; and invasive Non-Native Species Control.	<b>FON</b>	
2002104005	Installation of new big game guzzlers in the Sheep Hole and Calumet Mountains Bureau of Land Management --San Bernardino The California Department of Fish and Game (CDFG) proposes to install two big game guzzlers in the Sheephole Valley Wilderness. Both proposed water developments would consist of a small dam, a pipeline, a buried 10,000 gallon storage tank, and a wildlife accessible subterranean drinker. Installation of the water developments would require the use of motorized vehicles and equipment within the Sheephole Valley Wilderness. Representatives of the Society for the Conservation of Bighorn Sheep (SCBS) would monitor the new artificial water sources twice each year for water level and quality. Other monitoring would consist of pellet transect, photographic data, and guzzler operation. The proposed water development system is anticipated to require little maintenance after the initial construction. Installation of these water developments is proposed to be completed in the Spring of 2003.	<b>JD</b>	12/02/2002
